

## FOREST GOVERNANCE ASSESSMENTS

- Question 1: Could you tell us WHY this assessment was undertaken? What were your major objectives? Who were the main proponents and supporters? Were there skeptics and opposers?
- Question 2: Please outline for us how you developed your work plan, identified sources of needed information and went about collecting data.
- Question 3: Were there significant challenges in your data and information gathering effort? Were there “information surprises” and can you assess the reliability of the information obtained?
- Question 4: How was the information collected, organized, and disseminated? Who decided what information to include, and what information to publicly disseminate?

## FOREST GOVERNANCE ASSESSMENTS

- Question 5: What actions and initiatives have been undertaken (and by whom) based on the assessment results? How robust and broadly supported are these actions/initiatives? What advice can you give to countries contemplating forest governance assessments?
